Jared Gale - What Does He Perform?

Jared puts passion and energy into each of his performances and with his cheeky and one of a kind style, he will thoroughly entertain guests of all ages at your event.

Jared performs a variety of sleight of hand magic and mind reading routines during his performances, including;

- Jared will make a spectators chosen card magically change colour in front of everyone's eyes. Just when you think the trick is over, Jared rounds off the routine with a breathtaking finale.

- Jared will shock your guests with a slick routine where an ordinary elastic band teleports under increasingly impossible conditions, and finishes with the band jumping onto one of the guests hands!

- Jared invites a guest to think of a playing card before using his mind reading skills to work out exactly what card they're thinking of!

- Jared performs a comedy sleight of hand demonstration where a card, signed by a spectator, ends up folded up in an impossible location.

Jared Gale - **Whats In The Show?**

- Magic & Illusion –

Jared will entertain and amaze your guests with many illusions including making a bottle vanish into thin air, and a hilarious magical routine with a shoe borrowed from the audience and a bottle of drink!

- Stunts –

Jared will attempt to use his skills of reading body language and his knowledge of psychological techniques to avoid having a sharp spike impaling his hand. He also includes a world renowned sideshow stunt where he will hammer a solid steel nail into his face which leaves every audience speechless!

(These stunts can be removed from his act for more sensitive audiences and replaced with more magical routines)

- Mental Miracles -

Jared reads the mind of an audience member by revealing a freely chosen word that they merely think of, before taking it to another level which you have to see to believe! Jared closes his show with a one of a kind and impossible prediction routine with a surprising twist!

Jareds longer shows will also include other magical and mind reading routines, escaping from a straight jacket and large scale illusions where possible.
